## Objective

Passionate IT Business Analyst with a knack for translating complex business challenges into innovative technological solutions. With a solid background in both technology and business domains, I thrive on bridging the gap between diverse stakeholders and IT teams to drive projects from inception to successful implementation.

## Work Experience

Utkarsh Small Finance Bank      01/2023 - Nowadays  
Business Analyst (IT)

- \*Lead and manage end-to-end project lifecycles, from initiation to closure, ensuring projects are delivered within scope, budget, and timeline
- \*Collaborate with stakeholders, including internal business teams and external partners,vendors, to gather and document business requirements for various projects and initiatives.
- \*Participate in user acceptance testing (UAT) to validate that the delivered solutions meet business requirements and are user-friendly.
- \*Coordinate with external vendors and third-party partners, establishing strong working relationships and ensuring their solutions align with our business goals and requirements.
- \*Collaborate with cross-functional teams, including

developers, testers, and quality assurance, to ensure smooth implementation of solutions and timely resolution of issues.
